

Request for Proposal – Consultant Services

Shakespeare on the Saskatchewan – Site Redevelopment Project

Addendum #2 – November 6, 2018

1. Per Article 3. PROJECT SCOPE, the below Q&A will provide clarification:

Q: Is the theatrical lighting scope going to be provided by the consultant in Europe; or, is our electrical engineer going to have to take this over?

A: The lighting package shown in Appendix D is a preliminary design. It will be up to the successful Proponent and their engineers to finalize the design within the \$450,000.00 budget.

It should be noted that the stage lighting, instruments, and gear for the performance stage is outside the scope of work for this project and will be provided by SOTS. However, considerations for these components should be made within the architectural design.

End of Addendum #2
